Experience

AidBloom – Charity Website

March 2025

Full Stack Developer

- Built a responsive donation management platform using **HTML, CSS, JavaScript, and Bootstrap**, ensuring compatibility **across 100% of tested devices** and browsers.
Developed backend functionality with **ASP.NET and MySQL** to handle donor registrations, automate payment processing, and securely store records for 1,000+ transactions.
- Designed and implemented a clean, intuitive UI, reducing user **onboarding time by 30%** and increasing completed **donations by 20%**.
- Optimized database queries, reducing page **load times by 25%** and improving platform performance during peak usage.

Bayaan – Portfolio

Jan 2023

Full Stack Developer

- Developed a fully responsive personal portfolio website using **HTML, CSS, and JavaScript**, improving load speed by 35% and achieving 95+ Lighthouse performance scores.
- Designed and implemented over 10 reusable UI components with **pixel-perfect precision** to enhance design consistency and **reduce development time by 20%**.
- Integrated animations and smooth transitions with simple **JavaScript**, increasing average user session duration by 40%.
- Optimized site accessibility and SEO, resulting in a **25% improvement** in search visibility and **higher engagement** from recruiters.
- Collaborated with backend integration to dynamically load content, reducing manual updates by **80%**.

Education

University of Gujrat – Gujrat, Pakistan (UOG)

2022-present

Bachelor of Technology in Computer Science Engineering

CGPA: 3.09

Aspire College Gujranwala

2021

Higher Secondary Education in Math Science

Marks: 88.9%
